Synthesis, protein, embryonic (Rennert) (Abst.), 682
Systemic infection with *Hemophilus influenzae* in very young infants (Collier, Connor, and Nyhan), 539

T

Temperature, body, of premature infants with low-energy radiant heat, regulation of (Friedman, Adams, and Emmanouilides) (BCLO), 270
neonatal, and electrocardiographic response to varied environments (McClelland et al.) (Abst.), 690
Tendon, Achilles, normal reflex time in children as measured with photomotograph (Katz and Robinson), 772

Teridax (iophenoxic acid), effect of maternal ingestion of, on protein-bound iodine (Jankowski, Feingold, and Gellis) (BCLO), 436
Testosterone-corticosteroid–treated patients with aplastic anemia, evaluation of growth and of endocrine systems in (Shahidi and Crigler), 233
Thalassemia, deferoxamine and DPTA in (Helfer and Rodgerson) (Letter), 863; (Kahn and McDonald) (Reply), 863
Therapy, methicillin, hematuria associated with (London) (BCLO), 285
prednisone, of acute childhood leukemia (Wolff et al.), 626
sequential, of acute leukemia in childhood (Saunders, Kauder, and Mauer), 632
sex hormone, in cases of delayed puberty, question of (Stempfel) (Editorial), 1023
psychological aspects of (Crovitz and Keith), 956
Thirst mechanism, defective, secondary to hypothalamic lesion: studies in adipsia, polyphagia, obesity, and persistent hyperosmolality (Travis et al.), 915
Thoracic muscle, internal, and its significance (Meltzner) (BCLO), 619
Thrombocytopenia, hypoplastic, congenital, and myeloid leukemoid reactions with phocomelia (Dignan, Mauer, and Frantz), 561
Thrombotic microangiopathy (hemolytic-uremic syndrome), disseminated intravascular coagulation as possible factor in pathogenesis of (Lanzkowsky and McCrory) (Editor's column), 460
Thymic dysplasia ("Swiss agammaglobulinemia") (Miller), 730; (Miller and Hummeler), 737
Thyroxine levels, free, in children with mongolism (Marks and Hamlin) (BCLO), 435
Timing and volume measuring apparatus for indicator dilution in infants and children (Zane and Goldberg) (BCLO), 815
Tissue, adipose, composition, studies of (Baker (Abst.), 683
Toxicity, galactose, experimental, growth retardation of rat fetus produced by (Haworth and Ford) (Abst.), 676
Toxoplasmosis, congenital, clinical spectrum of (Miller, Seaman, and Remington), 714
Trace elements in drinking water, effect of on dental caries (Hadjimarkos) (BCLO), 967
Transformation, leukemic, of lymphosarcoma, chemotherapy of (Jones et al.), 442
Transfusion, bone-marrow, graft versus host reaction following (Miller), 730
exchange, in infant with anemia, hypoproteinemia, and patent ductus arteriosus, use of (Fox) (BCLO), 817
in newborn infant, myocardial infarction during (Van der Hauwaert, Loos, and Verhaeghe), 745
reserve albumin binding capacity as criterion for (Waters), 185
serum ionic magnesium in (Bajpai et al.), 193
Transfusion—Cont'd
placental, mechanics of breathing of newborn infants and effects of (Oh et al.), (Abst.), 690
Transition period (Hervada) (Letter), 153
Translocation in trisomy D syndrome (Craig and Luzzatti), 264
and trisomy in Down's syndrome, frequency of (Wright et al.), 420
Treatment and diagnosis of leukemia and lymphosarcoma (McElfresh) (Editorial), 1021
of recurrent staphylococcal infections in family, bacterial interference in (Fine et al.), 548
Tremor, intention, familial benign chorea with (Pincus and Chutorian), 724
Trisomy D syndrome, translocation in (Craig and Luzzatti), 264
and translocation in Down's syndrome, frequency of (Wright et al.), 420
Tritiated vitamin D_3 in familial vitamin D-resistant rickets with hypophosphatemia, metabolism of (DeLuca et al.), 828
Tryptic activity of duodenal juice in aplastic anemia (Ozsoylu and Argun), 60
Tuberculin, passive transfer of delayed hypersensitivity reaction to, in children with protein calorie malnutrition (Brown and Katz), 126
Tumor, ovarian, virilizing, in 2½-year-old girl (Ammann, Kaufman, and Gilbert), 782
Wilms', actinomycin D in management of (Fernbach) (Letter), 860; (Sukarochana and Kiesewetter) (Reply), 860
erythropoietin-producing (Shalet, Holder, and Walters) (BCLO), 615
Twins, monozygous, idiopathic anterior hypopituitarism in one of (Rosenfield et al.) (BCLO), 114
symmetrically conjoined, studies on (Bender) (Letter), 1010

U

Undergraduate education in the field (Asnes) (Letter), 306
Undernourished and well-nourished girls before and after menarche, comparison of skeletal growth and maturation in (Dreizen, Spirakis, and Stone), 256
Uremic-hemolytic syndrome (thrombotic microangiopathy), disseminated intravascular coagulation as possible factor in pathogenesis of (Lanzkowsky and McCrory) (Editor's column), 460
Urine collection, long-term quantitative and fractional, method for (Liu and Anderson) (BCLO), 276

V

Validation and standardization of school readiness screening test (Sprigle and Lanier, 602
Ventilatory assistance, simplified method in treatment of neonatal respiratory distress syndrome (McCormack, Carlson, and Arp) (Abst.), 692

Ventilatory—Cont'd
response to carbon dioxide hypoxia in newborn lambs (Howatt, Knelson, and DeMuth) (Abst.), 692
Ventricular septal defect and marked growth failure, before and after cardiosurgery, surgery, height growth rates in children with (Feldt et al.) (Abst.), 688
Ventriculoatrial shunting for hydrocephalus, skin slough complication of (Moiel and Zeller) (BCLO), 623
Viral and bacterial interrelationships in respiratory infections in children (Nichol, Soriano, and Cherry) (Abst.), 683
Virilizing ovarian tumor in 2½-year-old girl (Ammann, Kaufman, and Gilbert), 782
Virus, respiratory syncytial: isolation from middle-ear exudates of infants (Blattner) (Comments), 848
Vitamin D in fortified and natural foods and in vitamin preparations, consumption of (Dale and Lowenberg), 952
D_2, tritiated, in familial vitamin D-resistant rickets with hypophosphatemia, metabolism of (DeLuca et al.), 828
E deficiency: previously unrecognized cause of hemolytic anemia in premature infant (Oski and Barness), 211
Volume and timing measuring apparatus for indicator dilution in infants and children (Zane and Goldberg) (BCLO), 815

W

Water, drinking, trace elements in, effect of, on dental caries (Hadjimarkos) (BCLO), 967
Weight, birth, low, longitudinal studies of acid-base status in infants with (Schain and O'Brien), 885
Well-nourished and undernourished girls before and after menarche, comparison of skeletal growth and maturation in (Dreizen, Spirakis, and Stone), 256
Wilms' tumor, actinomycin D in management of (Fernbach) (Letter), 860; (Sukarochana and Kiesewetter) (Reply), 860
erythropoietin-producing (Shalet, Holder, and Walters), 615
Wiskott-Aldrich syndrome: clinical, immunologic, and pathologic observations (Wolff), 221

X

X chromosomes, five, female child with (Brody, Fitzgerald, and Spiers), 105
Xerophthalmia, corneal opacities resulting from (McLaren) (Letters), 453; (Feigin) (Reply), 453

urinary tract, in infancy and childhood, studies of. VIII. Reinfection vs. relapse in recurrent urinary tract infections. Evaluation by means of identification of infecting organisms (Bergström et al.), 13
vaginalis, trichomonas, in newborn infant (Blattner) (Comments), 608
Infectious mononucleosis in child with acute lymphoblastic leukemia (Lampkin, Canales, and Mauer) (BCLO), 876
Ingestion, glucose, lack of effect of, upon electrocardiograms in children (Gooch, Mintz, and Nora) (BCLO), 410
Inguinal region, lymphangioma in, with cystic lymphangiomatosis of bone (Najman, Fabečić-Sabadi, and Temmer), 561
Institutionalized mentally retarded population, some factors related to size and intelligence in (Bailit and Whelan), 897
Insulin and growth-hormone metabolism, studies of, in adolescent acromegaly (Frasier and Kogut), 832
roles of, in early partial remission of juvenile diabetes mellitus (Baker, Kaye, and Root), 825
plasma response and tolbutamide tolerance test in children with idiopathic hypoglycemia (Ehrlich and Martin), 485
Intelligence and size in institutionalized mentally retarded population, some factors related to (Bailit and Whelan), 897
Interferon, circulating, in infants and children with acute respiratory illness (Ray, Gravelle, and Chin), 27
Interns, suggestion for equitable distribution of (Milman) (Letter), 302
Intestinal transport, impaired, of proline in patient with familial iminoaciduria (Goodman, McIntyre, and O'Brien) (BCLO), 246
Intoxication, antihistamine, unusual case of (Schipior), 598
Intrahepatic bile ducts, cholestyramine therapy in patients with paucity of (Sharp et al.), 723
Intrauterine growth failure. III. Cellular growth of human placenta (Winick), 390
rates and mortality (Valaes) (Letter), 150; (van den Berg and Yerushalmy) (Reply), 151
infection in maternal rubella (Heggie), 777
immunization, characterization of serum immunoglobulins to somatic antigen of S. typhosa in infant following (Bellanti and Jackson), 783
Intravascular coagulation in acute stem cell leukemia successfully treated with heparin (Edson et al.), 342
Intubation, nasotracheal, prolonged, of small newborn infants, squamous metaplasia and necrosis of trachea complicating (Symchych and Cadotte), 534
Investigation, biochemical, of unusual case of glycogenosis (Özand, Tokatli, and Amiri), 225
of Doman-Delacato theory of neuropsychology as it applies to trainable mentally retarded children in public schools (Freeman) (B. rev.), 914
Ion, hydrogen, excretion and bicarbonate reabsorption in children with renal tubular acidosis (Soriano, Boichis, and Edelmann), 802
Ipecac, detailing—report of Committee on Poison Control, Rocky Mountain Pediatric Society (Helfer et al.), 895
syrup in management of accidental poisonings, public knowledge of (Alpert, Levine, and Kosa), 890
Iron poisoning, acute, chelation therapy in (Leikin, Vossough, and Mochir-Fatemi), 425
Isovolumetric exchange transfusion method, new, experience with (Cropp), 332

K

Kidneys, sponge, medullary, and renal tubular acidosis, Ehlers-Danlos syndrome with (Levine and Michael), 107
Killed measles vaccine, delayed dermal hypersensitivity following (Lennon and Isacson), 525
Kinase test, creatine, in detection of carriers of Duchenne muscular dystrophy, assessment of (Thompson, Murphy, and McAlpine), 82

L

L-phenylalanine, excess, effect of, on mothers and on their breast-fed infants (Fisch et al.), 176
Label of container, identification of prescribed drugs on (Shirkey) (Editorial comment), 592
Laboratory, office, rapid method for identification of pneumococcus in (Glasgow and Coene) (BCLO), 574
Lactose absorption in patients with galactosemia, studies of (Kogut, Donnell, and Shaw), 75

Lamb lung, fetal, effects of hypoxemia, hypercarbia, acidosis, and reduced pulmonary blood flow on surfactant of (Adams et al.), 396
Left atrium and right pulmonary artery, direct communication between (Tuncali and Aytac), 384
Lesions, cardiovascular, associated with congenital rubella (Hastreiter et al.), 59
hepatic, in congenital rubella syndrome (Esterly, Slusser, and Ruebner), 676
Letters to the editor, 149, 302, 446, 612, 763, 916
Leukemia, familial, and osteogenesis imperfecta (Gilchrist and Shore) (BCLO), 115
lymphoblastic, acute, infectious mononucleosis in child with (Lampkin, Canales, and Mauer) (BCLO), 876
stem cell, acute, successfully treated with heparin, intravascular coagulation in (Edson et al.), 342
Leukodystrophy, metachromatic, and arylsulfatase A in urine (Greene, Hug, and Schubert) (BCLO), 709
Level(s), factor VIII, effect of corticosteroids on (Canale et al.) (BCLO), 878
IgA, in serum of pediatric patients—evidence for local immunological system (South et al.), 645
Lipidosis, neurovisceral, familial (Scott, Lagunoff, and Trump), 357
Liver biopsy, percutaneous, open liver biopsy, and operative cholangiography, relative accuracy of, in diagnosis of biliary atresia (Hays et al.), 598
Local immunological system, evidence for—IgA levels in serum and saliva of pediatric patients (South et al.), 645
Lung, lamb, fetal, effects of hypoxemia, hypercarbia, acidosis, and reduced pulmonary blood flow on surfactant of (Adams et al.), 396
Lymphangiectasia with hypercatabolic hypoproteinemia (Partin) (Letter), 447; (Ores) (Reply), 448
Lymphangioma in inguinal region with cystic lymphangiomatosis of bone (Najman, Fabečić-Sabadi, and Temmer), 561
Lymphangiomatosis, cystic, of bone, lymphangioma in inguinal region with (Najman, Fabečić-Sabadi, and Temmer), 561
Lymphoblastic leukemia, acute, infectious mononucleosis in child with (Lampkin, Canales, and Mauer) (BCLO), 876
Lymphomas, autoimmunity, and immunological deficiencies (Peterson) (Letter), 916; (Canale and Smith) (Reply), 917
Lyon hypothesis and hematological and neoplastic disease (Pearson) (Editor's column), 768

M

Malaria, glucose-6-phosphate dehydrogenase deficiency, and sickling trait in Saudi Arab Children (Gelpi), 138
Malformation syndromes, multiple (Smith) (Editor's column), 923
Malnourished children with rickets, serum alkaline phosphatase in (Reddy and Srikantia), 595
Management of accidental poisonings, public knowledge of ipecac syrup in (Alpert, Levine, and Kosa), 890
of hypoglycemia, comment on (Ehrlich, Martin, and Bain) (Editor's column), 621
of syndrome of congenital deafness and otic meningitis (Stool, Leeds, and Shulman), 547
Marrow hypoplasia in anorexia nervosa (Pearson), 211
Masculinization of female fetus associated with norethindrone-mestranol therapy during pregnancy (Voorhess) (BCLO), 128
Measles in Nigerian children (Ogbeide), 737
vaccine, chick embryo grown, in egg-sensitive child (Brown and Wolfe) (BCLO), 868
killed, delayed dermal hypersensitivity following (Lennon and Isacson), 525
"Meconium ileus equivalent," oral administration of n-acetyl cysteine in prophylaxis of (Lillibridge, Docter, and Eidelman), 887
Medicine for newborn infants, recent advances in (Battaglia), 748
Medicolegal aspects of teratology (Brent), 288
Medullary sponge kidneys and renal tubular acidosis, Ehlers-Danlos syndrome with (Levine and Michael), 107
Mellitus, diabetes. Cellular growth in human placenta. II (Winick and Noble), 216
juvenile, early partial remission of (Baker, Kaye, and Root), 825
Meningitis, otic, and congenital deafness, syndrome of: diagnosis and management (Stool, Leeds, and Shulman), 547
enterobacterial, hemorrhagic cerebral necrosis in neonatal infants with (Cussen and Ryan), 771
Meningococcus, type B, pneumonia caused by (Blattner) (Comments), 442
Mental development in congenital heart disease (Linde, Rasof, and Dunn), 198
retardation, prenatal origins of: epidemiological approach (Miller) (Editor's column), 455
Mentally retarded children, growth in (Pozsonyi and Lobb) (BCLO), 865
population, institutionalized, some factors related to size and intelligence in (Bailit and Whelan), 897
Mestranol-norethindrone therapy during pregnancy associated with masculinization of female fetus (Voorhess) (BCLO), 128
Metabolism, insulin and growth-hormone, studies of, in adolescent acromegaly (Frasier and Kogut), 832
steroid, in premature pubarche and virilizing adrenal hyperplasia (Conly, Sandberg, and Cleveland), 506
Metachromatic leukodystrophy and arylsulfatase A in urine (Greene, Hug, and Schubert) (BCLO), 709

Metaplasia, squamous, and necrosis of trachea complicating prolonged nasotracheal intubation of small newborn infants (Symchych and Cadotte), 534

Method, new, of isovolumetric exchange transfusion, experience with (Cropp), 332

rapid, for identification of pneumococcus in office laboratory (Glasgow and Coene) (BCLO), 574

Migraine as cause of benign paroxysmal vertigo of childhood (Fenichel) (BCLO), 114

Mononucleosis, infectious, in child with acute lymphoblastic leukemia (Lampkin, Canales, and Mauer) (BCLO), 876

Mortality, infant and perinatal, in Scotland (National Center for Health Statistics) (B. rev.), 611

and intrauterine growth rates (Valaes) (Letter), 150; (van den Berg and Yerushalmy) (Reply), 151

Mosaicism, trisomy 21–trisomy 18, in boy with clinical Down's syndrome (Marks, Wiggins, and Spector) (BCLO), 126

Mucoviscidosis associated with Wiskott-Aldrich syndrome in patient (Bitar and Lightwood) (BCLO), 123

Multiple malformation syndromes (Smith) (Editor's column), 923

Murmurs, flow, diastolic, in congenital and acquired heart disease, some physical characteristics of (Friedman et al.), 52

Muscular dystrophy, Duchenne, assessment of creatine kinase test in detection of carriers of (Thompson, Murphy, and McAlpine), 82

variant of Pompe's disease (Smith and Williams), 567

Mycoplasma pneumoniae: cause of epidemic of primary atypical pneumonia (Cordero et al.), 1

Myocarditis, fatal, associated with ECHO virus, type 22, infection in child with apparent immunological deficiency (Maller et al.), 204

N

N-acetyl cysteine in prophylaxis of "meconium ileus equivalent," oral administration of (Lillibridge, Docter, and Eidelman), 887

Nafcillin, sodium, and penicillin V potassium, comparison of: persistence of group A streptococci as related to penicillinase-producing staphylococci (Markowitz et al.), 132

in treatment of Group A streptococcal infections (North) (Letter), 918; (Markowitz) (Reply), 918

Narcotic and narcotic-antagonist drugs in newborn rabbit, simultaneous administration of (Moore and Davis), 420

Nasotracheal intubation, prolonged, of small newborn infants, squamous metaplasia and necrosis of trachea complicating (Symchych and Cadotte), 534

Necrosis, cerebral, hemorrhagic, in neonatal infants with enterobacterial meningitis (Cussen and Ryan), 771

of trachea and squamous metaplasia complicating prolonged nasotracheal intubation of small newborn infants (Symchych and Cadotte), 534

Necroticans, enteritis, in Uganda (Wright and Stanfield), 264

Neoplastic and hematological disease and Lyon hypothesis (Pearson) (Editor's column), 768

Nephrosis, childhood: influence of infection on therapy (McLean and Herdman) (BCLO), 579

trimethadione, successful therapy of, with prednisone and cyclophosphamide (Northway and West), 259

Nervosa, anorexia, marrow hypoplasia in (Pearson), 211

Neuroblastoma, proposed classification of (James) (Letter), 764

Neurological abnormalities in achondroplastic children (Cohen, Rosenthal, and Matson), 367

Neuropsychology as it applies to trainable mentally retarded children in public schools, investigation of Doman-Delacato theory of (Freeman) (B. rev.), 914

Neurovisceral lipidosis, familial (Scott, Lagunoff, and Trump), 357

New books received, 299

Nigerian children, measles in (Ogbeide), 737

Norethindrone-mestranol therapy during pregnancy associated with masculinization of female fetus (Voorhess) (BCLO), 128

Number and size of cells—new parameters in neonatal growth (Medovy) (Editor's column), 459

O

Office laboratory, rapid method for identification of pneumococcus in (Glasgow and Coene) (BCLO), 574

Operative cholangiography, open liver biopsy, and percutaneous liver biopsy, relative accuracy of, in diagnosis of biliary atresia (Hays et al.), 598

Oral administration of n-acetyl cysteine in prophylaxis of "meconium ileus equivalent" (Lillibridge, Docter, and Eidelman), 887

-facial-digital syndromes, genetic and clinical heterogeneity in (Rimoin and Edgerton), 94

Organisms, infecting, evaluation by means of identification of. Studies of urinary tract infections in infancy and childhood. VIII. Reinfection vs. relapse in recurrent urinary tract infections (Bergström et al.), 13

Osteogenesis imperfecta and familial leukemia (Gilchrist and Shore) (BCLO), 115
Otic meningitis and congenital deafness, syndrome of: diagnosis and management (Stool, Leeds, and Shulman), 547
Ovale, foramen, valve-incompetent (Pagtakhan et al.), 848
Overflow in normal and aberrantly functioning children, developmental changes in (Cohen et al.), 39
Oxidase, glucose, test tape, lack of specificity of, in diagnosis of cerebrospinal fluid rhinorrhea (Kirsch) (BCLO), 718
Oxygen, alveolar-arterial, difference in premature infants breathing 100 per cent oxygen (Thibeault, Poblete, and Auld), 814
Oxygenation, hyperbaric, effect of, on neonatal tetanus (Rhea et al.), 33

P

Paralytic poliomyelitis: contacts of vaccinated children (Blattner) (Comments), 759
Paroxysmal vertigo, benign, of childhood, migraine as cause of (Fenichel) (BCLO), 114
Pathogenesis of supravalvular aortic stenosis syndrome (Antia et al.), 431
Pathology of congenital rubella syndrome (Singer et al.), 665
Paucity of intrahepatic bile ducts, cholestyramine in patient with (Sharp et al.), 723
Penicillin V potassium and sodium nafcillin, comparison of: persistence of group A streptococci as related to penicillinase-producing staphylococci (Markowitz et al.), 132
Penicillinase-producing staphylococci, as related to persistence of group A streptococci: comparison of penicillin V potassium and sodium nafcillin (Markowitz et al.), 132
Percutaneous liver biopsy, open liver biopsy, and operative cholangiography, relative accuracy of in diagnosis of biliary atresia (Hays et al.), 598
Performance, exercise, effect of cardiac surgery on (Goldberg, Adams, and Hurwitz), 192
Perfringens septicemia, Clostridium, as postoperative complication of newborn infant (Freedman and Hollander) (BCLO), 576
Persistence of group A streptococci as related to penicillinase-producing staphylococci: comparison of penicillin V potassium and sodium nafcillin (Markowitz et al.), 132
Phenylalanine, serum, hemolytic disease in association with elevation of (Ruppert) (Letter), 152; (Berry) (Reply), 153
Phosphatase, alkaline, serum, in malnourished children with rickets (Reddy and Srikantia), 595
Placenta, human, cellular growth in. II. Diabetes mellitus (Winick and Noble), 216
III. Intrauterine growth failure (Winick), 390
Plasma insulin response and tolbutamide tolerance test in children with idiopathic hypoglycemia (Ehrlich and Martin), 485
renin activity as aid to diagnosis of childhood primary aldosteronism with bilateral adrenocortical hyperplasia (Grim et al.), 377
Pneumatoceles complicating hydrocarbon pneumonitis (Wolfe, Adams, and Desilets) (BCLO), 711
Pneumococcus, rapid method for identification of in office laboratory (Glasgow and Coene) (BCLO), 574
Pneumonia, atypical, primary: epidemic caused by Mycoplasma pneumoniae (Cordero et al.), 1
caused by type B meningococcus (Blattner) (Comments), 442
Pneumoniae, Mycoplasma: cause of epidemic of primary atypical pneumonia (Cordero et al.), 1
Pneumonitis, hydrocarbon, complicated by pneumatoceles (Wolfe, Adams, and Desilets) (BCLO), 711
Poison Control, Committee on, Rocky Mountain Pediatric Society, report of—detailing ipecac (Helfer et al.), 895
Poisoning(s), accidental, public knowledge of ipecac syrup in management of (Alpert, Levine, and Kosa), 890
iron, acute, chelation therapy in (Leikin, Vossough, and Mochir-Fatemi), 425
Poliomyelitis, paralytic: contacts of vaccinated children (Blattner) (Comments), 759
Pompe's disease, muscular variant of (Roth and Williams), 567
Population, mentally retarded, institutionalized, some factors related to size and intelligence in (Bailit and Whelan), 897
Postoperative complication of newborn infant, Clostridium perfringens septicemia as (Freedman and Hollander) (BCLO), 576
Potassium, penicillin V, and sodium nafcillin, comparison of: persistence of group A streptococci as related to penicillinase-producing staphylococci (Markowitz et al.), 132
Prednisone and cyclophosphamide, successful therapy of trimethadione nephrosis with (Northway and West), 259
Prematurity, comparison of gestational age and weight as standards of (Ghosh and Daga), 173
Prescribed drugs, identification of, on label of container (Shirkey) (Editorial comment), 592
Primary aldosteronism, childhood, with bilateral adrenocortical hyperplasia: plasma renin activity as aid to diagnosis (Grim et al.), 377
atypical pneumonia: epidemic caused by Mycoplasma pneumoniae (Cordero et al.), 1
Program, Family Pediatrician, in training of pediatric residents (Kolmen), 742

Proline, impaired intestinal transport of, in patient with familial iminoaciduria (Goodman, McIntyre, and O'Brien) (BCLO), 246
Prophylaxis of "meconium ileus equivalent," oral administration of n-acetyl cysteine in (Lillibridge, Docter, and Eidelman), 887
Proteins, serum, total, of infants and children, use of hand refractometer in determining (Thoene et al.) (BCLO), 413
Psychologist, clinical, in pediatric office (Smith, Rome, and Freedheim), 48
Pubarche, premature, and virilizing adrenal hyperplasia, steroid metabolism in (Conly, Sandberg, and Cleveland), 506
